

Park County Regional Landfill

112 Cody Landfill Road, Cody, WY
307-587-2443

7:00am - 4:30pm
Monday - Saturday
Closed Legal Holidays

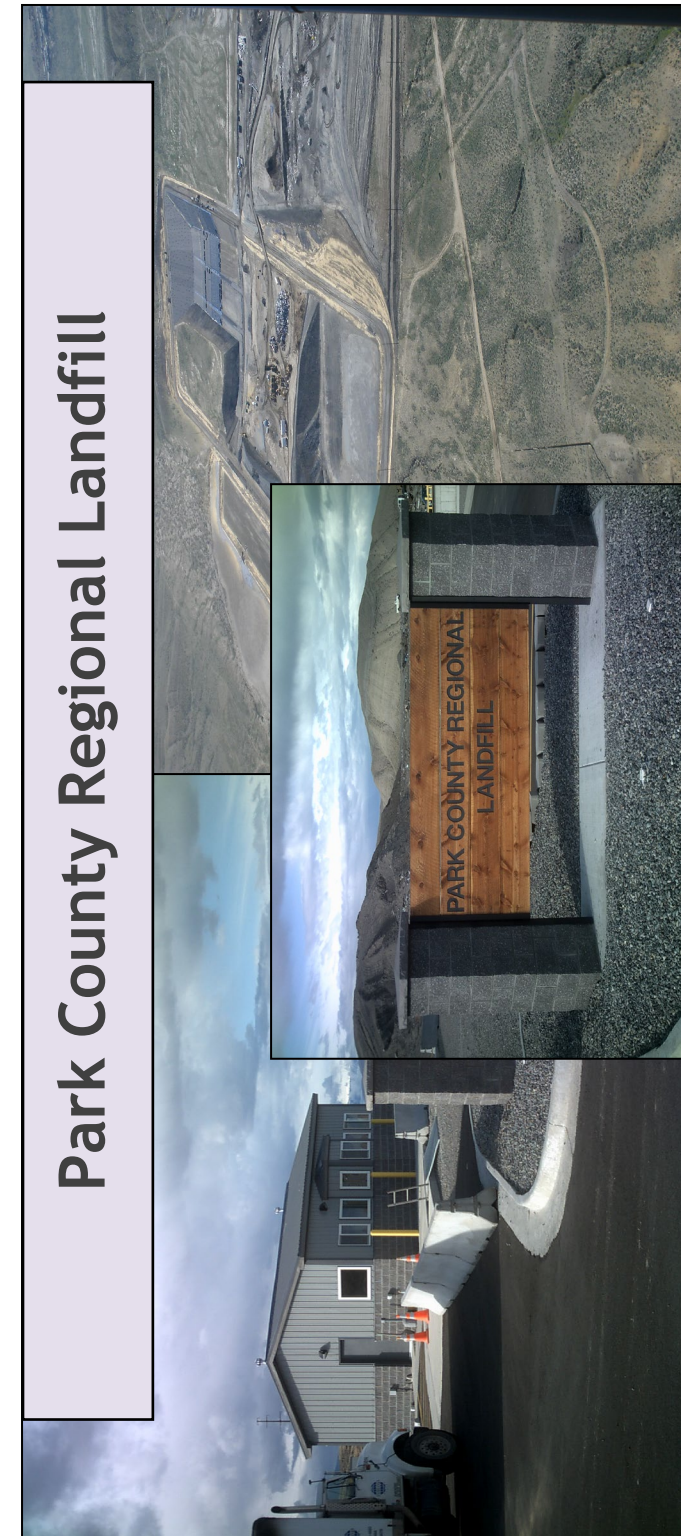

The Park County Regional Landfill is located 3.3 miles South on Highway 120 from the airport in Cody. We are a lined, sanitary, municipal solid waste disposal facility serving all of Park County and the surrounding area.

We accept all municipal solid wastes as well as construction & demolition materials, organic materials, metal, oil & auto batteries, tires, concrete and asphalt just to mention a few. We also provide recycling activities for many of these items.

Certified scales are used to weigh each delivery in and out of the facility. Your disposal charge is based on the weight of your delivered wastes.

Our Citizen's Convenience Center provides a space for customers to safely unload smaller quantities of household wastes, oil, auto batteries for recycling as well as serving as a biweekly drop off location for **medical sharps****.

Landfill Procedures

All vehicles are required to register with the Landfill Gate Attendant to receive delivery instructions for every load.

Please follow the gate attendant's instructions. You must obey all disposal area signs. Penalties exist for improper trash placement. If you have a question, please obtain help from one of the site employees. Operations and disposal areas at the facilities change often. We are here to help.

Obey speed limit signs especially while taking turns entering and exiting the scale.

Yield to Landfill equipment. You can see them better than they can see you. Be cognizant of your surroundings.

During inclement weather please call to make sure areas of disposal are open.

All waste brought to the landfill must be secured, covered or in a closed container. Any load arriving at the landfill gate not properly secured will be subject to a **\$25** surcharge or refusal to accept material for disposal.

All vehicles must be safely unloaded and returned to gate before 5:00pm.

It is unlawful to scavenge or salvage without written approval

Sharps Days

****Medical sharps are collected in household quantities provided they are delivered in a secure sharps container on the first and third Thursday of each month.**

Random Waste

Screening For continued protection of our landfills, random load inspections are also required by our governing agencies. The US Environmental Protection Agency, E.P.A., R.C.R.A Subtitle "D" Procedures for excluding hazardous waste, regulatory overview (40 CFR, Part 258.20) requires these inspection and documentations of incoming loads to detect hazardous or PCB waste. **If your load is chosen for random inspection, your patience is appreciated.**

How to Report Illegal Dumping

It is best to call the local law enforcement immediately.

Hazardous Waste

It is unlawful to dispose any liquid, chemical or regulated hazardous material at a municipal landfill. Special wastes such as NON-Friable Asbestos (Friable Asbestos not accepted), Sharps, Paint, Oil, Batteries, Refrigerators, Air Conditioners, or other hazardous materials require special handling. Please contact the Landfill Gate Attendants **BEFORE** delivering these items to the landfill.

Petroleum

Contaminated Soil

(PCS) Fees are based on \$20/ton with a minimum charge of \$400. Prior approval with an Agreement for Proper Analytical Testing is required. Contact the Landfill Office (307) 527-1818.
